Linda-

we have work numbers, but we need contact info if we need to call people after hours. since our staff has all manner of pagers , cells and home phones, we're trying to assemble the best means of contact. often times, what Carol has is not up to date or may be only a home phone. Dr. DeMaria will have further discussions w/ us about implementing appropriate notification and recall procedures regarding events that befall our lab facility. thanks.....kathy

Hi Kathy: So the phone numbers listed should not be office phone numbers? Is it possible to get home numbers from Carol? Linda

Linda-

Dr. DeMaria has asked me to assemble a list in the event that you and those in your division's line of succession have to be contacted after hours (or if away from the SLI) . I'm using our previously established COOP's succession of responsibility as a start. please complete the columns for your division and return to me. thanks for your help.....kathy
